DETAILED ACTION

1. This action is in response to the amendment filed on 2/7/2008.
2. Claims 1, 3-23, 25-39, and 41-54 are pending.
3. Claims 4, 9, 35, and 36-38 are rejected under 35 U.S.C. 112, second paragraph.
4. Claims 1, 3, 5-8, 10-23, 25-34, 39, and 41-54 are allowed.
5. Claim 36 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
6. Claim 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim Objections

7. Claims 39 and 41 are objected to because of the following informalities:
 - in claim 39, line 13, "a second signal" should be change to "the second";
 - in claim 41, line 2, "signal" should be removed.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

8. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

9. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4, 9, 35, and 36-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4, “the processing resource” in line 2 of the claim lacks antecedent basis and it is unclear whether “the group of data blocks” in lines 3-4 refer to the first group of data blocks or the first set of two or more groups of data blocks.

In claim 9, “the second set of two or more groups of data blocks” in line 8 of the claim lacks antecedent basis.

In addition, it appears that the step of “converting a second set of two or more groups of data blocks” is omitted as the limitation “wherein converting the second set of two or more groups of data blocks...comprises:... ” is supposed to further define the omitted step (note that claim 9 was objected to in the previous Office action for not depending from the original claim 2). Therefore, the claim is incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01.

In claim 35, it is unclear whether claim 35 would depend from which claim after claim renumbering since the original claim 24 was canceled.

In claim 36, lines 13-14, “the second ingress interface” and “the second egress interface” lack antecedent basis (note that claim 36 was objected to in the previous Office action for not depending from the original claim 24).

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
